

Navajo Code Talkers

Amélie Risi & Eric Sageloli

5 avril 2018

Introduction

How to secretly send a message ?

- Steganography

How to secretly send a message ?

- Steganography
- Cryptography

How to secretly send a message ?

- Steganography
- Cryptography

But also..

- Translation of the message into an obscure language

Code talkers appeared in the first half of 20th century

Meeting of two conditions :

- The existence of the radio and the phone
- By that time, most of the cipher machines were too slow and fragile to be used for tactical field communications

Figure 1 – The SIGABA

Plan :

- Relation between the Navajos and the US in the late of the 19th century
- How Navajo code talkers have been recruited
- Study of the Navajo code
- Recognition and current situation of the Navajos

Navajos and US in the late of the 19th century

But

- The long walk
- Boarding schools

The long walk

In 1864 :

- Deportation of approximately 8000 Navajo people by the government of the United States of America
- Forced trek over 480km into the Bosque Redondo camp

The long walk

In 1864 :

- Deportation of approximately 8000 Navajo people by the government of the United States of America
- Forced trek over 480km into the Bosque Redondo camp

They were not informed of :

- Where they were going
- Why they were being relocated
- How long it would take to get there

The long walk

In 1864 :

- Deportation of approximately 8000 Navajo people by the government of the United States of America
- Forced trek over 480km into the Bosque Redondo camp

They were not informed of :

- Where they were going
 - Why they were being relocated
 - How long it would take to get there
-
- The journey lasted 18 days
 - Nearly 2000 Navajos died

Boarding schools

around 1900 : many American Indian children were in church-operated boarding schools

They were forced to

- Speak in English
- Give up their traditional clothing
- Drop their native names
- Become Christian

Navajos as code talkers : how they have been recruited

- Preliminary : the code talkers during the WWI
- Pacific war and the idea of Philip Johnston
- The demonstration
- Efficiency of the Navajo code talkers

Preliminary : the code talkers during the WWI

- First use of native American code talkers : Cherokee

September 1918 : During the Second Battle of the Somme, They helped to win the battle

Preliminary : the code talkers during the WWI

- First use of native American code talkers : Cherokee

September 1918 : During the Second Battle of the Somme, They helped to win the battle

- Reaction of Germany

Pacific war and the idea of Philip Johnston

Philip Jonhston

- 1942 : he proposed to the Marine Corps that Navajos and other tribes could be recruited as code talkers
- The major general Clayton Barney Vogel accepted to try the idea

The demonstration

Johnston recruited four bilingual Navajos and they went to Camp Elliott for a demonstration.

- Two of the Navajos translated in Navajo typical military field orders and sent it by radio to their companions
- The companions translated the message in English

Example,

*"Enemy expected to make tank and dive bomber attack
at dawn."*

became...

Example,

"Enemy expected to make tank and dive bomber attack at dawn."

became...

"Enemy tank dive bomber expected to attack this morning."

Example,

"Enemy expected to make tank and dive bomber attack at dawn."

became...

"Enemy tank dive bomber expected to attack this morning."

Translation was done in 20 second instead of the 30 minutes needed by machines at that time.

- May 1942 : 29 Navajo code talkers are recruited
- Altogether, between 375 to 420 Navajos participated to the program.

Navajo and Navajo code

- Why the Navajo language was a good choice
- How it works
- Evolution of the code
- Some flaws of the code
- Efficiency of the Navajo code talkers

Why the Navajo language was a good choice?

- The largest population of Native American

Why the Navajo language was a good choice?

- The largest population of Native American
- It remained mostly "unwritten"

Why the Navajo language was a good choice?

- The largest population of Native American
- It remained mostly "unwritten"
- Complex grammar

Why the Navajo language was a good choice?

- The largest population of Native American
- It remained mostly "unwritten"
- Complex grammar
- Imposture aren't easy to make

How it works

Because of a lack of military terms, a code was needed.

How it works

Because of a lack of military terms, a code was needed.

- Dictionary for common military words

NAVAJO CODES NAME OF SHIPS		
SHIPS	TOH-DINEH-IH	SEA FORCE
BATTLESHIP	LO-TSO	WHALE
AIRCRAFT	TSIDI-MOFFA-YE-HI	BIRD CARRIER
SUBMARINE	BESH-LO	IRON FISH
MINE SWEEPER	CHA	BEAVER
DESTROYER	CA-LO	SHARK
TRANSPORT	DINEH-NAY-YE-HI	MAN CARRIER
CRUISER	LO-TSO-YAZZIE	SMALL WHALE
MOSQUITO BOAT	TSE-E	MOSQUITO

<https://www.cia.gov/news-information/featured-story-archive/2008-featured-story-archive/navajo-code-talkers/>

How it works

- A phonetic alphabet table

A	Ant	WOL-LA-CHEE
B	Badger	NA-HASH-CHID
C	Cat	MOASI
D	Devil	CHINDI
E	Ear	AH-JAH
F	Fox	MA-E

Figure 2 – correspondance for some letters

<https://www.cia.gov/news-information/featured-story-archive/2008-featured-story-archive/navajo-code-talkers/>

Evolution of the code

- The original dictionary of 211 terms has been progressively expanded to 411
- Multiple words to spell one letter

A	Ant	WOL-LA-CHEE
A	Apple	BE-LA-SANA
A	Axe	TSE-NILL

Figure 3 – multiple correspondances for one letter

<https://www.cia.gov/news-information/featured-story-archive/2008-featured-story-archive/navajo-code-talkers/>

Some flaws of the code

Modern standards not respected :

- Non uniqueness of the translations of a message

On the field :

Some flaws of the code

Modern standards not respected :

- Non uniqueness of the translations of a message
- Kerckhoffs's principles aren't observed

On the field :

Some flaws of the code

Modern standards not respected :

- Non uniqueness of the translations of a message
- Kerckhoffs's principles aren't observed

On the field :

- Different evolutions of the code appeared

Some flaws of the code

Modern standards not respected :

- Non uniqueness of the translations of a message
- Kerckhoffs's principles aren't observed

On the field :

- Different evolutions of the code appeared
- Some battalions didn't have code talkers

Efficiency of the Navajo code talkers

Battle of Iwo Jima (1945) :

- Six Navajo Code Talkers sent more than 800 messages.

" Were it not for the Navajos, the Marines would never have taken Iwo Jima."

Major Howard Connor, signal officer of the Navajos at Iwo Jima

Efficiency of the Navajo code talkers

Battle of Iwo Jima (1945) :

- Six Navajo Code Talkers sent more than 800 messages.

" Were it not for the Navajos, the Marines would never have taken Iwo Jima."

Major Howard Connor, signal officer of the Navajos at Iwo Jima

- The only spoken military code never to have been deciphered.

Conclusion :

- Recognition of Navajo code talkers
- Current situation

Recognition of Navajo code talkers

Vietnam War : End of the use of Navajo code talkers

- Declassification of the program (1968)

Beginning of recognition of code talkers

- 1982 : Certificate of Recognition
- 2000 : they received medals from the US Congress
- 2008 : signature of the Code talkers recognition

Current situation

- Poor conditions life
 - Unemployment
 - Health problems
- There is still some lack of respect
